Bobbex Deer & Rabbit Repellent

Tired of watching deer and rabbits eat your precious plants? Bobbex will protect your plants from hungry herbivores. Just spray the easy-mix non-toxic liquid repellent on your flowers and bushes and relax! The deer won't eat plants sprayed with Bobbex.

Bobbex repels by both odour and taste using fish oil, eggs, garlic and other ingredients to deter deer from browsing. The distinctive smell warns them the area has been treated, and the burn of the cayenne, though not harmful, gives them an instant reminder that they are not to eat your plants. Bobbex will leave a strong odour for about 24 hours. After this time the odour will only be detectable by the deer and rabbits. And guess what? The plants don't mind Bobbex! You can spray it right on the flower blossoms. No staining or wilting.

Does Bobbex wash off? No, the product is formulated to adhere to plant surfaces, preventing wash off due to rain and watering.

Is Bobbex safe? Yes, it's environmentally safe, harmless to wildlife, aquatic species, humans and pets. It contains no petrochemical or synthetic components.
